

**Department of Botany
Organized**

One week Training on herbarium techniques and digitalization offered at Botanical survey of India Prayagraj 100 participants four batches of 25 students each August 2022

The notice is printed on a light blue background. At the top, there are two circular logos: the University of Allahabad logo on the left and the C.M.P. Degree College logo on the right. The college name is written in Hindi and English. Below the college name, it states 'A Constituent P.G. College, University of Allahabad', 'DBT STAR COLLEGE', and 'NAAC Accredited B'. A horizontal line separates the header from the main text. The date 'Date: 01.08.2022' is on the right. The word 'NOTICE' is centered. The main text describes a training program on herbarium techniques and digitalization, offered at the botanical survey of India Prayagraj from 08.08.2022 to 12.08.2022. It mentions that all students are invited to participate. The notice is signed by the Coordinator of the Department of Botany, who is also the Convenor of the Botany Department at C.M.P. College, Allahabad.

।वस्तु।

सीएमपी डिग्री कॉलेज में जल साक्षरता की पढ़ाई शुरू होने जा रही है। इसके लिए तीन माह का प्रमाणपत्र कार्यक्रम तैयार कर लिया गया है। इसमें कॉलेज के किसी भी विभाग का कोई भी विद्यार्थी निःशुल्क प्रवेश ले सकेगा।

प्राचार्य प्रो. अजय प्रकाश खरे के निर्देश पर रसायन विज्ञान विभाग के असिस्टेंट प्रोफेसर डॉ. प्रमोद शर्मा ने यह पाठ्यक्रम तैयार किया है और इसमें विभाग की संयोजिका डॉ. बबिता अग्रवाल की भी प्रमुख भूमिका रही। तीन माह के प्रमाणपत्र कार्यक्रम में यूजी, पीजी और रिसर्च के विद्यार्थी प्रवेश ले सकेंगे। इसमें थ्योरी कक्षाओं के साथ फील्ड वर्क और प्रैक्टिकल कराया जाएगा। इस दौरान एक बैच द्वारा एक तलाब को दुरुस्त किया जाएगा और झील को कचरा मुक्त किया जाएगा।

इसके तहत कॉलेज को जल मॉडल के रूप में तैयार किया जाएगा और वर्ष जल संचयन के बेहतर प्रबंध किए जाएंगे। विद्यार्थियों को जल प्रदूषण के तहत अशुद्धता के मानक, स्रोत, पहचान के तरीके और उनकी व्यावहारिक जानकारी भी दी जाएगी।

Rally during the Programme

On the occasion of World Water Day, on March 22, 2023, a one-day National Seminar, Public Awareness Rally and Poster Competition was organized by the Water Literacy Certificate Course conducted by the Chemistry Department of CMP Degree College and the closing ceremony and certificate of the course also distributed.

This time by the United Nations, the theme was the change you want to see in the world, bring that change in yourself. In the inaugural session, Dr. Archana Pandey, Associate Professor, Department of Chemistry, lectured on the effect of thoughts on the consciousness of water. Research done in the world shows that our thoughts have a special effect on water, so whenever we take water, do it with positive thinking. Dr. Sunanda Das, as the second speaker, gave information to the children about water-borne diseases and the importance of water. Dr. Santosh Srivastava spoke about the increasing water crisis and we all have to come forward to deal with it, Dr. Babita Agarwal, the convenor of the department, also told about the importance of water, Aarti Gupta, Dr. Mridula Tripathi also addressed the students. Certificates were also awarded to 40 students of Water Literacy Certificate Course and B.Sc Part I Part II research students of the college participated in the event. A rally was also taken out by a large number of students for the awareness of water conservation in the college campus, in which the students yearned for trees if it did not rain without trees.

Pollution should also call, stop this atrocity.

Reduce the use of paper, adopt computer email, trees will survive, water will be saved, everyone will have to save water.

Save Water Save Life.

As the entire campus resonated with slogans, the Principal of the college, Professor Ajay Prakash Khare, addressing the students on the occasion, said that today the whole world is facing water challenges. India is also not untouched by it, Prayagraj has been declared a dark zone, if we don't wake up now, the coming situation will be very frightening. KP Trust President Chaudhary Jitendra Nath Singh, while congratulating the children who received the certificates, said that youth should be made aware to conserve our natural resources and inspire them to save them. On this occasion a large number of students including Dr. Anil Kumar Shukla, Dr. Jaya Srivastava, Dr. Pramod Sharma, Dr. Akram Ali, Dr. Priyanka Chawla research students Ashwani Sharma, Arun Kumar, Shraddha Tiwari, Kuldeep Pandey, Mohammad Zaheer, Amit Kumar, Sakshi Singh, female students were present.

Report and Photographs during the Programme

That's why the amount of water we have should be used very wisely and the emphasis should be on conserving as much as possible.

Apart from all these things, you have explained many different aspects in detail, like if we take the rivers to the villages through canals before joining the sea, then it will be very wrong because sea water is salty and river water is sweet. Which goes into the sea and reduces its salinity. Due to which the animals of the sea can live and the life of the people living on the seashore of Maharashtra, Gujarat, Goa, South India is better. If we stop the water of the rivers, then the whole water cycle will get messed up and the sea water will become poison. And the clouds that will form after evaporation will also be poisonous.

Every organism of this earth is connected to each other, for example, the frog goes inside the earth at this time where there is moisture and then comes back in the rainy season when the water level starts filling again.

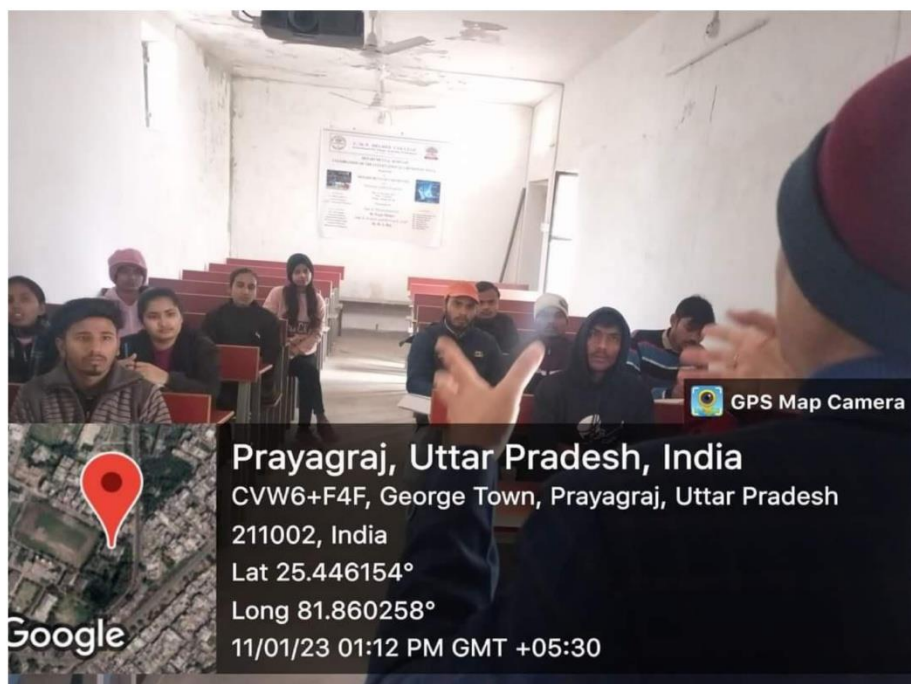

But if the water level goes too low, then the frog will also have to go down and by the time it gets to know about the rain, 2 to 3 rains will have already happened, the result of which will be that the frog will come out later and the number of mosquitoes will increase because Frogs and baby frogs feed on mosquitoes. Frogs do the work of protecting against diseases like malaria, dengue etc.

That is why it is important that the water level remains correct.

We know that Indian culture has always given the status of God to water, because if we consider something as God, we neither waste it nor let it get wasted, but today's society has forgotten this tradition. given which is not correct at all

This is the reason that in today's time the tragedy of water is being established everywhere. He appreciated this course started by CMP College.

Course Coordinator Dr. Pramod Sharma proposed vote of thanks. On this occasion, students of the course including water warrior Aryashekhar, Monu Gupta were present.

Today on 29 January 2023 Special invited lecture was given by **renowned environmentalist and water scientist Dr. Arun Tiwari** under the **Water Literacy Certificate Course** conducted by the **Department of Chemistry**. He said that we have to keep anything made of five elements on this earth linked to five elements only, if we do any kind of tampering with them then the consequences can be very frightening.

Water has special importance even in Panchmahabhoots, everything is useless without water.

Water creates and also destroys water. For example, wherever water was found or civilizations developed on the banks of rivers, settlements were formed and when there was drought, that whole area became deserted, settlements were destroyed, people left their birthplace and fled.

Recently, it was seen in Turkey that all the water of ground water decreased, as a result, the residents of that place migrated, as a result, it happened that people of other countries started establishing themselves there and due to this war broke out there, a big reason for that was water.

It was

Today, January 11, 2023 Dr. Santosh Kumar Srivastava gave an invited lecture under the water literacy course conducted by the Department of Chemistry

Sir said that all of us should also adopt Israel's model because Israel government uses 67 percent water through recycling. Water can be conserved in many ways.

According to Him, we can use recycled water for all types of work except drinking water.

increases the crop yield by 40 percent and also water can be saved from it. Also Sir with his suggestions on scientific method of farming and things related to it. Also inspired to write letters to the Prime Minister, Chief Minister, President etc. Along with this, it was also told that before making people aware, it is necessary that we ourselves become a role model. And for this we ourselves have to do the same type of work.

, K

A special Lecture was organised on 16 Dec 2022 by Water Literacy certificate Course in which Aesha Singh, District Project Officer (Namami Gange) was invited as a Guest Speaker and gave informative lecture on 'Role of Youth in River Conservation' and discussed about the Importance and ways of Community work, Also talked about the Pollution of River Ganga, Impact on humans and talked how a Energetic Youth can play lead role in conservation of rivers through organizing various awareness tools -Ganga chaupal, Rally, Exhibition, Cleanliness drive, Competition, Door to door, Workshop etc. And motivated to join the Campaign and do their bit. Dr. Anil kumar, Dr. Pramod kumar, Dr. Sunanda Das, Dr. Deepanjali and students of this course was Present in the event and expressed thanks and Gave appreciation Letter to Ms. Aesha Singh for being part of the Water Literacy Course.

This relationship deepened further and literature was created on almost all the rivers of India and the countrymen became grateful and sensitive towards the rivers. Unfortunately, in modern times, this relationship has weakened and the public mind has become ritualistic and careless. Along with this, despite keeping the rivers clean and uninterrupted, modern technology played more role in polluting them and the civil society kept forgetting its duty. He put all the blame on the governments and the governments did the same thing. Today it is necessary that the government and the society, and its various parts work together, only then things will happen. Dr. Babita Agarwal, the convenor of the chaired department, Dr. Pramod Sharma, the operations course coordinator, did the vote of thanks and Dr. Dipanjali Pandey coordinated the program.

Babinar was organized by the Water Literacy Certificate Course conducted by the Department of Chemistry on 11 December 2022. Chief speaker Dr. Ramshankar Singh Academic Fellow, Dr. Ambedkar University Delhi said that Pandit Jawaharlal Nehru had said that **Ganga is the eternal river of India**. This is true even today. Big empires were established on its banks, fairs were held and employment opportunities were created. This river has enriched India in every way but today its very existence is in danger. Its continuity has been disrupted and pollution has caused unprecedented damage to the aquatic life of the Ganges and the vegetative life along its banks. To avoid this, all the communities of India have to come forward and recognize their role.

Songs have been written in prayer to rivers since the time of the Rigveda. Even the rivers have been worshiped in its third division. In Rigveda, Vishwamitra communicates with Vipat and Shatudri rivers and the rivers are called sisters.

In Water Literacy Course conducted by the Department of Chemistry today on 9th of December 2022, invited speaker **Dr. Uttara Singh**, Assistant professor Department of Geography CMP Degree College Explained about the **work of rivers and the relevance to understand benefits** provided by them (called ecosystem services) and how they impact our day-to-day lives. They provide drinking water, irrigation, transportation, and more. They also provide habitat for important fish species.

Today, on December 7, 2022, Dr. Pramod Sharma, to the students of **Water Literacy Course** conducted by the **Department of Chemistry, water quality and its measurement method and water quality standard** To check Indian Standard, I.C.M.R., W.M. H o., regarding the standard issued by the American Public Health Association

Told the students, TDS, pH and temperature were shown through the kit in the lab itself, some toxic metals dissolved in water, side effects caused by arsenic, chromium, lead, mercury and their sources as well as how to remove them Methods were also explained. Dr. Ashok Kumar Ranjan by Water Analyzer 371 for PH, TDS, D.O. Told about the method of checking the salinity, etc. parameters.

, Shivendra, Priyanshu, Anushka, Sakshi, Rinka, Muskaan, Mohit, Ashish, Udichi, Shubham etc. were present on the occasion along with research student Arun Kumar.

Dr. Babita Aggarwal, Convener of the Department of Chemistry, presided over the program and also welcomed the visiting guests on behalf of the department. Dr. Pramod Kumar conducted the vote of thanks. Research students Shraddha Mishra, Ashwini Sharma, Nivedita Srivastava and other students were present.

Biodiversity will be saved, plantation should be done on the banks of the river. Plant fruit trees.

* The land of the river must be marked around the population.

* All the rivers of the district should be mentioned in the district headquarters, block headquarters, panchayats.

* The state should declare its state river, the district panchayat should declare its district river i.e. district river.

Criminal cases should be initiated against those who encroach the river.

* The forests that are planted on the banks of the river should be the wealth of the river and the water resources department/panchayats should be its partners, not the forest department. A distinction should be made between riverine forests and other forests.

* In district panchayats, separate cells should be formed for the protection of rivers and lakes.

@@@@ what to do in homes @@@@

drink water in a small glass

drink only as much water as you can

Put the rest of the RO water to other uses

Do not open the tap directly while shaving and brushing

Water should be used in a mug/bucket

houses, markets, fix/get it done

Start harvesting rainwater, save water in parks

, big plants at home, in school, on empty land

Do not use drinking water to wash the vehicle

Use a mug and bucket while taking a bath

Corporations and go from Legislative Assemblies to Lok Sabha. Water is a gift of nature, everyone has equal right on it. Of humans as well as of other living beings. But right now barbaric use of water is going on which is dangerous, it has to be stopped. We have to introduce water literacy in schools. Religious organizations should start water stories and the government should follow its own words. A better way will come out of this. The people associated with the Save Small Rivers campaign started Jal Katha from the Kumbh Mela. Water cycle is being recited in this. To inculcate reverence for water like Ganges water in the mind. The campaign believes that it is necessary to respect water. The government has been requested to introduce the study of rivers in the school curriculum. Book writing has also been started for this. We are saying all over the country that there should be no politics in the name of water. Water politics should be done. Political parties should come out with a comprehensive and separate manifesto on water.

What to do to save water

* Counting of ponds should be started afresh

* Counting of small rivers should be done.

* The land of the river should be announced.

* The way for the water of pools to go into the river should be opened.

* In order to stop the rain water, big ponds should be made on the banks of the river.

Plant trees and preserve the entire catchment area of the river.

* Any kind of water from the drains of the city and rural areas should be prevented from going inside the river.

* It should be decided to keep water in such a way that aquatic animals can live inside the river.

* Mining inside the river should be controlled and silt should be removed while saving eco balance.

* Birds will be able to live on the banks of the river only with trees and plants.

All the researches are warning that in the near future the crisis of drinking water will emerge as the biggest problem of the country. Forests are being cut down at a rapid rate. The original form of the rivers has been spoiled for illegal mining. Mountains have been broken. Due to this the average temperature in the country has also increased. Different types of water crisis can be seen from Kashmir to Kanyakumari. The situation has come to such an extent that the drinking water crisis has increased even in the hilly areas. More than 10 crore people of the country are deprived of adequate food. Agriculture is in ruins in every state. Farmers are frustrated and angry. The debt-ridden farmer is not able to find any way out of it, in such a time we have to think about water.

Start at the local level, the society should also come forward

Indian society is also making efforts to face the challenge of water crisis. There is a need to understand this crisis better and give it the shape of a mass movement. The water on the top of the earth and inside the belly of the earth (georgh) is running out. Trees are being cut down fast. Therefore global warming has increased. There is a big danger of climate change, the condition of farming and farmers has become worse. A big reason behind this is that the country's small rivers and pools have dried up. They need to be cleaned.

From small rivers, the Ganga used to take a huge form in the plains and used to enrich and enrich the whole of North India. But today the condition of Ganga is worse. When ponds and small rivers will be saved, then only Ganga will be saved. Only then the country will be happy.

Water stories and water politics

Villages and cities are increasingly facing drinking water crisis. Every citizen has a role to play in creating and overcoming the water crisis. This is the only thing to be understood and explained. There is a need to give social and economic punishment to those who misuse water knowingly. Those who do better, their back should also be patted. People washing vehicles with ground water are seen everywhere, while people and other creatures are also seen struggling for one bottle of water. At present also there are laws ; But neither the society is becoming sensitive in stopping the crimes being committed with water ; Neither the system of government. It should be that now there should be politics on water. The one who gives clean water, makes good use of water, promises to provide water equally to all ; Such a person should go to Municipal

rivers and pools in the city get dry during the summer ? This question is demanding an answer from the citizens of the 21st century.

Keep in mind that in the country where the promise of flowing rivers of milk was made, there is famine in all parts of that agricultural India. 362 districts of the country are in the grip of drought. The increasing water crisis has taken 16 states under its grip. Ninety percent of the country's rivers have dried up or have water only during the monsoon. The condition of most of the rivers is getting worse day by day. The condition of Ganga, the river of faith that nourishes crores of people in North India, is also not good. According to the report of the Ministry of Water Resources, there is a danger of water crisis in more than 15 states in the coming time. Rainy days have decreased, surface water reserves are depleting and natural calamities have increased.

The side effects of climate change are also being seen. Due to sudden heavy rains in many places, the soil there is getting eroded and going into the rivers. This is not only reducing the fertile power of a particular place, but also silt is filling in the rivers. Even after seeing the crisis looming over the rivers, efforts were never made on war footing for rain water harvesting in the country. There was a campaign of intensive afforestation on the banks of the rivers. Now a record has been made in Uttar Pradesh for planting 5 crore saplings. Earlier also such claims were made. During the Corona period, the governments have made many claims of getting ponds and rivers excavated with MNREGA money to provide work to the laborers. Such efforts have also been seen in some places. Why don't our governments start a campaign of ' water audit '. This will give an idea of our water requirement and availability. The constitution gives everyone the right to live and it is not possible to imagine life without water. That's why the government has to be active and the society too.

Saving water has been included in the culture of India. But now the tradition of conservation of ponds is also dying. Thousands of years ago, the society used to come forward to make ponds, for their protection, even the centers of power used to help them. But now the land of ponds and rivers, its forest has been encroached upon. Due to non-availability of ponds, the rain water is going unnecessarily into the sea. Governments remained miserly even in making good use of India's traditional knowledge and work for pond conservation.

Today, December 1, 2022, Mr. Brajendra Pratap Singh speaks about “Need to save water sources” in the Water Literacy Course conducted by the Department of Chemistry. Monsoon is not yet in full swing in India. Despite this, many states including Uttar Pradesh, Bihar, Uttarakhand, Assam are already in the grip of floods. Similarly, by the end of winters, there is a crisis of water not being accessible and drought in all the states. This imbalance of water cycle adversely affects human life and life of animals. For the last two decades, this balance has been deteriorating. This situation has arisen due to tampering with water sources and water supply system in the name of development. The ponds and lakes which used to store rain water became victims of encroachment. The catchment area of the rivers means the area of the river – its part of land, its banks, plateau, forest area, water catchment area got populated. Man-made encroachments were made on the centuries-old natural course of the river. That's why the flood becomes 'notorious' when there is a slight increase in the water in the river. Flood used to come earlier also ; But the damage was less because the settlements were at a respectable distance from the water sources, but now only the banks of the river are inhabited. That's why the increased water seems to be causing difficulties to the population and it is also happening. Earlier this water of rain and flood used to stay in the catchment area of pond, lake, river and used to seep and increase the ground water. It was a natural act, which was spoiled by the interference of development. The effect of this is that the river brings floods in the monsoon and itself craves water in the later days. Actually, most of the rain water goes to the sea through the river. If this water was stopped or stopped on the ground of pond, pond, lake and river, then the stock of ground water would have increased by percolation. On need, the rivers used to keep their stream alive with this ground water and this ground water was accessible to the human population. For drinking as well as for irrigation. Due to the deterioration of the relationship of balance and respect, now there has been loot of water. Some people draw water from 400, 600 feet below, have fun in multi-storey swimming pools in summer and wash cars with drinking water ; At the same time lakhs of people struggle for every drop of water on the dry bed of the river. This contradiction of access to water is neither good for democracy nor for the human world. That's why the business of bottled water has reached trillions in the world market. Water is a gift of nature. It is for the common man and all beings. Why capture the market on this ? Are we humans who kill the rights of other creatures ? Where will the animals and birds go when all the

If Ganga is saved, the country will be saved: Dr. Pramod Sharma On 27 November 2022, a cleanliness campaign was conducted on the Sangam beach by the students of the Water Literacy Certificate Course conducted by the Chemistry Department of **CMP Degree College**, as well as a rally was also taken out from Ramghat to Lete Hanuman Mandir for public awareness, in which We need Aviral Ganga, Nirmal Ganga by the students. We all have decided to make Ganga clean. Slogans like Save Ganga, Save the country were raised. Along with this, polythene and other garbage was collected and dumped in the dustbin at Ram Ghat. Cleanliness was also requested. This program will continue even further. On this occasion, Course Coordinator Dr. Pramod Sharma, Monu Gupta, Ankit Shivendra, Anushka, associated with Ganga cleaning campaign and CMP students were present.

A special lecture was organized on 24 Nov.2023

At global level, Women and environment discourse is literally depicted as gender and environment lens which is much needed as the required aspect for the analysis of contemporary environmental degradation, global warming and climate change. Global level forums and organisations like UN Women, IFAD, ILO, etc. are especially working on the empowerment and development of women in terms of gender equality and gender mainstreaming to tackle the global crisis of environmental degradation through UN SDGs Agenda 2030. The same goals have been implemented in India too but the results observed are differential based on the physiography of India. Indian diaspora is much diversified with 70% of rural population in which women play a major role as they are directly related to the management of natural resources like fuel, fodder, fetching water, etc. for their households. The domestic work and the agricultural work is mostly a major part of women's life. So they are more environmentally conscious as compared to men. This environmental consciousness is inherent in feminine values which need to be understood by men too. As gender equality and gender mainstreaming are the contemporary issues in gender and environment discourse, there is a need to support feminine values at the grassroots level which obviously begins from family. So women are the best agency for water literacy as this will not only promote change in family values motivated towards water conservation but will also bring change at societal level.

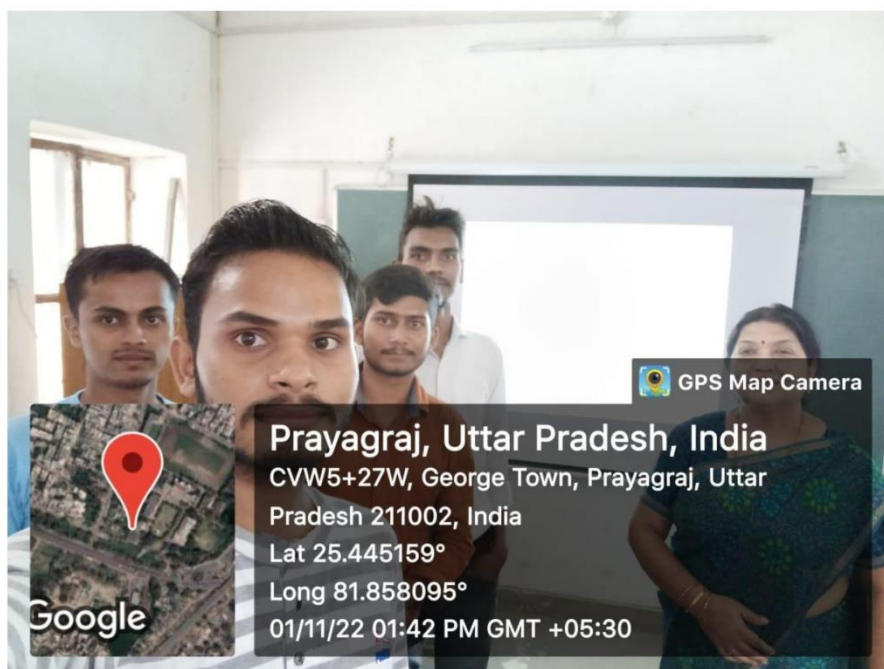

Women and water conservation through water literacy: Anita Singh

unit in the college, emphasis was laid on forming teams and groups of students to work on the issue of water, environment and mother Ganga. Dr. Babita Aggarwal, Convener of Chemistry Department, welcomed Aryashekhar, the main speaker of today's program and Course Coordinator Dr. Pramod Sharma conducted the program. Dr. Anil Shukla gives the vote of thanks on this occasion. Students including Dr. Archana Pandey, Dr. Satosh Srivastava, Dr. Vishal Srivastava, Dr. Himani Chaurasia were present.

Management and conservation necessary to save water : water warrior aryashekhar

Today, **10 November 2022**, under the **water literacy course program** conducted by the **Chemistry Department of CMP Degree College**, the keynote speaker **Aryashekhar “The Water Warrior”**, connecting the students with their responsibility and duty, tried to take the attention of the students to the growing market of water and the ill-effects of their mischief, as well as to the national river Maa Ganga. He discussed about the protocol of Maa Ganga along with the immediate crisis and the ways of diagnosis, and also introduce about the dreams Ganga of Swami Sanand ji, the martyr son of Maa Ganga, among the students! On the other hand, giving examples of all the successful works of Jal Purush Rajendra Singh ji, told that Jal Purush ji believes in the true sense of the value of life, what we call God is the five elements, which we call Chhitij, Jal, Pavak, Gagan Sameera, whose correct interpretation is the water warrior. An attempt was made to define Ganga in the true sense through God! Along with this, by creating a

जल प्रबंधन से जल की चुनौतियों से निपट सकते हैं

प्रयागराज। विश्व ओजोन दिवस के अवसर पर "सेव ओजोन लेयर सेव लाइफ" विषय पर रसायन विज्ञान, जुलोजी, वनस्पति और फिजिक्स विभाग के संयुक्त तत्वावधान में डी.बी.टी.स्टार कालेज के तहत राष्ट्रीय संगोष्ठी का आयोजन शुक्रवार को वनस्पति विज्ञान विभाग के आडिटोरियम में किया गया रसायन विज्ञान विभाग के द्वारा "जल साक्षरता" पर शुरू हुए सर्टिफिकेट कोर्स का शुभारंभ भी इस अवसर पर किया गया। कार्यक्रम में मुख्य अतिथि के रूप में इलाहाबाद विश्वविद्यालय के डीन साईंस प्रोफेसर शेखर श्रीवास्तव ने कहा कि जल प्रबंधन से जल की चुनौतियों से निपट सकते हैं। जल की उपलब्धता की कमी का मुद्दा जल की गुणवत्ता से जुड़ा है। हमारे करीब ७० प्रतिशत जल स्रोत प्रदूषित हैं और हमारी प्रमुख नदियां प्रदूषण के कारण सूख रही हैं। आज भूजल में सिवनतपक्रम और आर्सेनिक की मात्रा बढ़ रही है। जिससे अनेक जल जनित रोग उत्पन्न हो रहे हैं। मुख्य वक्ता के रूप में कुलानुशासक प्रोफेसर राजेंद्र सिंह रज्जू धैया विश्वविद्यालय डह अविनाश श्रीवास्तव ने कहा कि वेदों उपनिषदों में जल को देवता माना गया है जल हमारी रक्षा करें

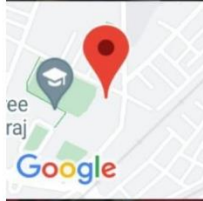

ऐसी प्रार्थना है जल ही जीवन का आधार है। लोकमानस के कवि गोस्वामी तुलसीदास ने लिखा है हित अनहित पशु पक्षिं जाना दुर्भाग्यपूर्ण है कि आज मनुष्य अपने अविवेकपूर्ण निर्णयों और औपनिवेशिक सोच के कारण प्राकृतिक संसाधनों का लगातार दोहन कर रहा है। प्रकृति केन्द्रित विकास की अवधारणा ही इन चुनौतियों से निपटने में सक्षम है। अद्यक्षता करते हुए कालेज के प्राचार्य प्रोफेसर अजय प्रकाश ने कहा कि विकसित देशों ने तमाम जहरीले गैसों

का उत्सर्जन किया और आज जो विकासशील देश हैं उन्हें भी रोक रहे यह जिम्मेदारी उनकी है जिनोंने समस्या खड़ी की है। जल साक्षरता कोर्स के शुभारंभ पर उन्होंने कहा कि यह हमारी नैतिक जिम्मेदारी है कि जल संरक्षण के लिए अपनी भूमिका निभाएं। कार्यक्रम की संयोजक रसायन विज्ञान विभाग की संयोजिका डह बबिता अग्रवाल ने विश्व ओजोन दिवस के बारे में विस्तृत जानकारी देते हुए आवाहन किया कि हमें छोटे छोटे प्रयासों से ही

पर्यावरण को संरक्षित करना होगा। सौर ऊर्जा, इलेक्ट्रिक अमीपबस, ईको फ्रेंडली क्लीनिंग प्रोडक्ट के उपयोग से ओजोन क्षरण में कमी आएगी। डां अर्चना पांडेय ने भी छोटे छोटे प्रयासों के लिए कहा। प्रमोद शर्मा ने कहा इस कार्यक्रम में मुख्य रूप से डॉ अमिता पांडेय डॉ अनिल शुक्ला, डां सरिता श्रीवास्तव, डां विशाल श्रीवास्तव, डां दीपांजलि पांडेय सहित जल साक्षरता कोर्स के छात्र छात्राएं उपस्थित रहे।

ओजोन परत का संरक्षण हम सबके लिए चुनौती

संवाद न्यूज एजेंसी

प्रयागराज। उत्तर प्रदेश राजर्षि टंडन मुक्त विश्वविद्यालय में समाज विज्ञान विद्या शाखा के अंतर्गत भूगोल विभाग की ओर से शुक्रवार को विश्व ओजोन दिवस पर अंतरराष्ट्रीय संगोष्ठी-सह व्याख्यान माला का आयोजन किया गया।

इविवि भूगोल विभाग के पूर्व अध्यक्ष प्रो. एआर सिद्धीकी ने पुर्तगाल से सम्मेलन को ऑनलाइन संबोधित किया। प्रो. सिद्धीकी ने कहा कि वर्तमान परिप्रेक्ष्य में ओजोन की सुरक्षा, संरक्षा और परिवर्धन किया जाना समय की मांग है।

विशिष्ट वक्ता जननायक चंद्रशेखर विश्वविद्यालय, बलिया के पूर्व निदेशक शैक्षणिक प्रो. गणेश पाठक ने बताया कि आज ओजोन संरक्षण के कार्यक्रमों को जनमानस में प्रचारित करने की आवश्यकता है। प्रो. पाठक ने अपने व्याख्यान में 'श्रिति जल पावक गगन समीरा' जैसे पंचतत्व का उद्घरण देते हुए बताया कि इन्हीं पंचतत्वों का संरक्षण ही वास्तव में ओजोन संरक्षण है।

कुलपति प्रो. सीमा सिंह ने अंटार्कटिक में भारत द्वारा स्थापित मैत्री एवं गंगोत्री स्टेशन की परिचर्चा कर उसकी प्रासंगिकता पर अपने विचार व्यक्त किए। कार्यक्रम

जल योद्धा बनकर पानी बचाएंगे विद्यार्थी

इलाहाबाद विश्वविद्यालय के महाविद्यालय में शुरू हुआ अनूठा पाठ्यक्रम, 42 युवाओं ने कराया नामांकन

अवलोकन • प्रयागराज

मां गंगा को अवरिल निर्मल बनाने के साथ आमजन को जल संरक्षण के लिए प्रेरित करने के उद्देश्य से संगमनगरी में अभिन्न प्रयोग शुरू किया गया है। जल संरक्षण के इस अति महत्वपूर्ण अभियान में विद्यार्थियों को जल साक्षर बनाया जा रहा है। इसके लिए छात्र-छात्राओं को तीन माह के पाठ्यक्रम में प्रवेश लेकर विषय में प्रवीणता साबित करने होगी। उसके बाद प्रमाणपत्र दिया जाएगा। ये जल योद्धा नदियों की स्वच्छता सुनिश्चित करने के साथ अपने आसपास के जल स्रोतों को दूषित होने से बचाने और जल संरक्षण की योजनाएं बनाने व पूरी करने में सहयोगी बनेंगे तथा दूसरों को भी जागरूक करेंगे।

तीन माह का निशुल्क कोर्स: तीन माह का जल साक्षरता सर्टिफिकेट कोर्स इलाहाबाद विश्वविद्यालय

प्रयागराज के सीएमपी डिग्री कालेज में जल प्रबंधन कक्षा में अध्ययन करते विद्यार्थी • जगप्रकाश

पाठ्यक्रम का उद्देश्य जल चुनौतियों से निपटना है। सरकार के साथ समाज और व्यक्तिगत स्तर पर जब तक कार्य नहीं होगा, तब तक हालात नहीं बदलेंगे। इस कार्य में युवाओं की भूमिका महत्वपूर्ण है।

डा. प्रमोद शर्मा, जल पाठ्यक्रम समन्वयक, सीएमपी कालेज

गांव-कस्बे के लिए बनानी होगी जल प्रबंधन योजना

जल साक्षरता कोर्स में एक चरण फील्ड वर्क का है। इसमें विद्यार्थियों को किसी नदी, तालाब, बावड़ी या झील का समग्र अध्ययन कर उसके पुनर्जीवन की योजना पर लघु रिपोर्ट बनानी होगी। किसी गांव या छोटे कस्बे के लिए जल प्रबंधन योजना भी विद्यार्थी बनाएंगे।

से जुड़े चौधरी महादेव प्रसाद महाविद्यालय के रसायन विज्ञान विभाग ने शुरू किया है। इसमें महाविद्यालय का कोई भी विद्यार्थी प्रवेश ले सकता है, यह निशुल्क है।

वर्षा जल संचयन पर विशेष ध्यान: पाठ्यक्रम के तहत छात्र-छात्राओं को जल से संबंधित सैद्धांतिक जानकारी देने के साथ फील्ड वर्क भी कराया जाएगा। विद्यार्थियों को ऐसी बस्तियों में जाना होगा जहां लोग जल को

महत्ता और जल जनित रोगों से अर्निभिज्ञ हैं। उन्हें जागरूक करना होगा। पाठ्यक्रम का शुभारंभ अक्टूबर 2022 से हुआ है। इसमें 42 विद्यार्थी पंजीकृत हैं। मुख्य रूप से इनका ध्यान वर्षा जल संचयन की बारीकियों को समझने पर है।

विकास व जल के संबंध की जानकारी: पाठ्यक्रम में विद्यार्थियों को जल प्रस्तावना, जल स्रोत, जल चक्र की जानकारी दी जा रही है। यह

भी बताया जा रहा है कि सामाजिक, सांस्कृतिक, आर्थिक, भौतिक और लोकोत्प्रेक्षक विकास का संबंध पानी से कैसे है। इनके एक दूसरे पर प्रभाव और वर्तमान की चुनौतियों का भी अध्ययन विद्यार्थी कर रहे हैं।

विस्तार से पढ़ने के लिए स्कैन करें

जल साक्षरता की पढ़ाई कर सकेंगे छात्र और छात्राएं

प्रयागराज। चौधरी महादेव प्रसाद (सीएमपी) डिग्री कॉलेज में अब जल साक्षरता की पढ़ाई कर सकेंगे। इसके लिए कॉलेज ने पाठ्यक्रम तैयार कर लिया है। यह तीन माह का पाठ्यक्रम होगा। इसके अंतर्गत छात्राओं को सर्टिफिकेट प्रमाणपत्र प्रदान किया जाएगा। इसमें कॉलेज के किसी भी विभाग का कोई भी विद्यार्थी निःशुल्क प्रवेश ले सकेगा।

तीन माह के प्रमाणपत्र कार्यक्रम में यूजी, पीजी और रिसर्च के विद्यार्थी प्रवेश ले सकेंगे। इसमें थ्योरी कक्षाओं के साथ फील्ड वर्क और प्रैक्टिकल कराया जाएगा। इस दौरान एक बैच

द्वारा एक तालाब को दुरुस्त किया जाएगा और झील को कचरा मुक्त किया जाएगा। इसके तहत कॉलेज को जल मॉडल के रूप में तैयार किया जाएगा और वर्ष जल संचयन के बेहतर प्रबंध किए जाएंगे। विद्यार्थियों को जल प्रदूषण के तहत अशुद्धता के मानक, पहचान के तरीके और उनकी व्यावहारिक जानकारी भी दी जाएगी। प्राचार्य प्रो. अजय प्रकाश खरे के निर्देश पर रसायन विज्ञान विभाग के असिस्टेंट प्रोफेसर डॉ. प्रमोद शर्मा ने यह पाठ्यक्रम तैयार किया है और इसमें विभाग की संयोजिका डॉ. बबिता अग्रवाल की भी प्रमुख भूमिका रही।

SHORT-TERM CERTIFICATE COURSE

Name of Course : Certificate Course in_
Personality Development and Stress Management

Course Code :

Course Category : Skill Development/**Soft Skill**/Vocational

Department : **Psychology**

Description of the Course: (150 words) Our personality is the strongest aspect of our life. Personality of an individual develops as a result of interaction between individual's characteristics with the environmental factors. It is a unique way and specific pattern of thinking, feeling and behaving. Students grow in their life successfully if they have an impressive personality. This course is designed to help student understand the nature of their personality through theoretical and practical aspects. An attempt will also be made to help students understand the various ways in which their personality can be improved. One of the important dimension of personality is the ways in which we handle stress in our lives. In the technologically advanced world, stress enters in our lives from many sources, ranging from our day to day chores to the digital addiction. It is very important that we should not only identify various sources of stress in our lives, but also learn to deal with stress in an effective way. The present course will help us understand an in-depth understanding of the stress phenomenon, Hans Selye's contributions to stress description and

Website: cmpcollege.ac.in

differentiation, the physiology of stress, and various ways of active and defensive ways of coping with stress.

Objective of the Course: (150 words)

The course will have following objectives-

1. This certificate course on personality development and stress management will help students understand the nature of the personality and various ways of handling stress in life.
2. The course will address various ways in which personality can be groomed for success in life.
3. This course is designed to help individuals develop and implement effective strategies in dealing with stress at the personal or organisational level and manage stress in the workplace effectively.
4. This Stress Management course teaches participants to identify signs of stress and other mental health issues in individuals.
5. The course will also address issues related to the dangerous effects of stress in human life.
6. The course will be especially useful for those who are looking to develop techniques to manage stress effectively, who want to develop a balanced and stress-free culture and environment and helping individuals where stress is affecting their performance and their personality.

Outcome of the Course (including potential for employment generation): (150 words)

Personality Development and Stress Management course will give participants an access to the best of knowledge related to the topic of Personality and stress as it is dealt in Psychology and behavioural sciences. After completion of the course, the participants will not only get a theoretical knowledge about nature of personality and stress, its causes and ways of coping, but will also come to know about the effective and healthy ways of coping with the stress. Some of the important outcomes of the course are that students will know that personality can be changed and groomed for success in life. They will start coping better with challenges of life. Body become healthier and shows signs of good immunity. Work and efforts become more productive. Mood become more positive. People get along with others in an easier way and start to draw in other positive people and great opportunities which makes life even more fun and inspiring. Developing this soft skill not only makes a person healthy physically but also mental health becomes better. The students having a certificate course on Personality development and stress management will definitely make them more skilled in job market especially in corporate world or they can also become a good soft skill trainer and life coach.

Sanskrit Sambhashan

Centre for Spoken Sanskrit

Sanskrit-Sambhashan Kendra (Centre for Spoken Sanskrit) has been established in the Department of Sanskrit, C.M.P. Degree College, in which apart from the students and research scholars of the Sanskrit Department, interested persons of the society are taught to behave through simple and easy Sanskrit language. Simple-Sanskrit-Speaking directly enriches a person with the knowledge of Sanskrit language as well as indirectly enriches him with human qualities like sanskar, warm-heartedness, intimacy, harmony, patriotism etc., which helps in the social and cultural upliftment of the nation.

Rally on 'Swachh Bharat Abhiyan' (Date: 21/02/2023)

सीएमपी डिग्री कॉलेज की राष्ट्रीय सेवा योजना के इकाई संख्या 26 एवं 28 के द्वारा दिनांक 21/02/2023 को एक दिवसीय शिविर कार्यक्रम का आयोजन किया गया जिसमें मुख्य कार्यक्रम अधिकारी डॉ राजेश कुमार यादव एवं डॉ प्रमोद कुमार जी के नेतृत्व में स्वयंसेवकों ने प्रधानमंत्री जी द्वारा चलाए जा रहे महाअभियान "स्वच्छ भारत -स्वस्थ भारत अभियान " को जन जन तक पहुंचाने के लिए जागरूकता रैली निकालकर एवं संगम क्षेत्र में गंगा घाटों पर सफाई अभियान चलाया। महाविद्यालय में सभी छात्रों को साफ सफाई से रहने एवं गंदगी न फैलाने के लिए जागरूक किया गया। इसके साथ ही दोनों इकाई के सभी बच्चों ने जागरूकता रैली निकाली यह रैली सीएमपी महाविद्यालय से त्रिवेणी-संगम के रामघाट तक ले जाई गई।

बच्चे गंगा मैया के नारे - गंगा रक्षा भारत रक्षा

गंगा बचाओ देश बचाओ।

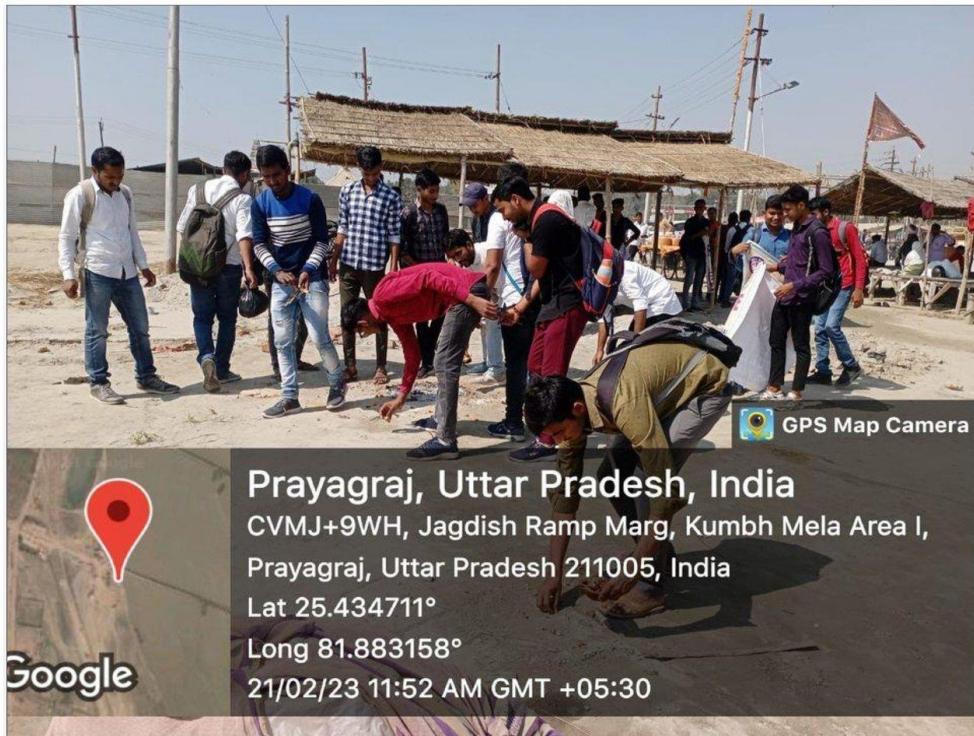

गंगा में पाप धोएं न कि गंदगी।

इत्यादि नारे लगते हुए संगम क्षेत्र में प्रवेश किया एवं रामघाट गंगा घाट पर पहुंच कर बच्चों के साथ में कार्यक्रम अधिकारी भी घाट की साफ सफाई किए।

राष्ट्रीय प्रदूषण नियंत्रण दिवस समाज में प्रदूषण के प्रति जागरूकता फैलाने हेतु मनाया जाता है। 2 दिसंबर 1984 भोपाल गैस त्रासदी हुई थी जिसमें मिथाइल आइसो सायनेट गैस के रिसाव के कारण हज़ारों बेकसूर लोग मारे गए थे। प्रदूषण से होने वाली जन हानि किसी भी बीमारी से होने वाली मृत्यु से अधिक होती है। अतएव जागरूकता एवं समझ तथा प्रदूषण नियंत्रण एवं निवारण के माध्यम से हम जन हानि कम कर सकते हैं तथा प्राकृतिक स्रोतों का संरक्षण भी कर सकते हैं। इसी क्रम में दिनांक 02.12.2022 को राष्ट्रीय प्रदूषण नियंत्रण दिवस के अवसर पर रसायन विभाग, चौधरी महादेव प्रसाद महाविद्यालय में पर्यावरण संरक्षण एवं प्रदूषण नियंत्रण हेतु जागरूकता कार्यक्रम का आयोजन किया गया। जिसके तहत शोधार्थियों एवं शिक्षकों के मध्य कपड़े से बनें झोलों का वितरण किया गया। इन झोलों के माध्यम से उनके बीच यह सन्देश प्रसारित करने का प्रयास किया गया की प्लास्टिक एवं पॉलीथीन का प्रयोग न करें एवं यह झोला सदैव अपने साथ रखें और बाजार से वस्तुएँ खरीदते समय पॉलीथीन को ना कहें जिससे हमारा पर्यावरण सुरक्षित रह सके। इन झोलों का वितरण डॉ० अर्चना पाण्डेय एसोसिएट प्रोफेसर रसायन विभाग के सौजन्य से किया गया। इस कार्यक्रम में विधार्थियों एवं शोधार्थियों तथा शिक्षकों को पर्यावरण को संरक्षित करने की शपथ दिलाई गयी। महाविद्यालय के प्राचार्य प्रो० अजय प्रकाश खरे ने अपने उदबोधन में पर्यावरण के अनुकूल व्यवहार को अपनाने पर बल दिया। रसायन विज्ञान विभाग के डॉ० संतोष कुमार श्रीवास्तव ने "पर्यावरण प्रदूषण एवं प्लास्टिक मुक्त भारत" विषय पर व्याख्यान देते हुए कहा की हमें प्रकृति से सिर्फ लेना ही नहीं, प्रकृति को देना भी सीखना होगा। प्रकृति का

दोहन करते हुए हमने उसे कचरा घर बना दिया है। आज हमारे समुद्र, जलीय संरचनाएं तथा पर्वत एवं समतल मैदान कचरों से पटे पड़े हैं और इसका निस्तारण बड़ी समस्या है। इनमें से अधिकतर कचरों का प्राकृतिक विघटन संभव नहीं है और कुछ जैसे पॉलीथीन एवं प्लास्टिक तो हज़ारों वर्षों तक विघटित नहीं होंगे तथा ये हमारे जमीन के अंदर एक परत बना ले रहे हैं जिसका परिणाम यह हो रहा है कि बरसात का पानी पृथ्वी की निचली सतह में नहीं पहुँच पा रहा है और हमारे पृथ्वी के अंदर जल स्तर में लगातार गिरावट हो रही है क्योंकि प्राकृतिक जल का दोहन ज्यादा हो रहा है और उसे हम रिचार्ज नहीं कर पा रहे हैं। डॉ० संतोष ने अपील की कि हमें ऐसे विकास का भागी होना चाहिए जिससे प्रकृति की विविधता कायम रहे। आज इस अवसर पर हम संकल्प लें कि हम कोई भी ऐसा कार्य ना करें जिससे हमारे वातावरण को प्रत्यक्ष एवं परोक्ष रूप से नुकसान पहुँचे। अतएव अभी से हम सभी अपने कार्य प्रणाली में आमूलचूल परिवर्तन कर प्रकृति संवर्धन प्रक्रिया का हिस्सा बनें। समन्वयक डॉ० बबिता अग्रवाल ने इस कार्यक्रम के उद्देश्यों से जनमानस को अवगत कराया तथा डॉ० प्रवीण सिंह ने धन्यवाद ज्ञापित किया। उपरोक्त कार्यक्रम में शपथ काजल सिंह द्वारा दिलाई गयी। इस अवसर पर डॉ० मोनिका, डॉ० अकरम, डॉ० रंजीत, डॉ० अशोक, डॉ० अनिल, डॉ० प्रवीण त्रिपाठी, डॉ० हिमानी, डॉ० आरती, डॉ० मृदुला, प्रगति, अश्वनी, निवेदिता एवं भारी संख्या में छात्र-छात्राएं तथा अध्यापक कर्मचारीगण उपस्थित रहे। मंच संचालन डॉ० अकरम ने किया।

Sanitary Pad Distribution

On third day of the seven days special camp, i.e., on 26th March, 2023 the NSS volunteers of Unit 30 & 32 of CMP Degree College Prayagraj visited the slum area allotted to the units to spread awareness among women of the slum regarding women health and hygiene under the supervision of Dr. Anuradha Singh and Dr. Nandini Raizada. The volunteers were divided into fifteen groups. These groups visited door to door and told the women of the respective houses about the menstrual hygiene and provided them with a packet of sanitary pad. They also told them the importance of women education and promoted girl child education. They also warned them about the evil effects of early marriages and early pregnancies from health point of view. After the visit, the students were provided with the refreshment. Anika, Shivani, Deepti, Kirti, Ruchi, Laxmi, Shreya, Sushma, Khushi, Surbhi, Vivechna, Priyanka, Saumya, Srishti and Harshita were the group leaders.

**Promotion of Women Entrepreneurship on the Occasion of International Women's Day
(Date: 16/03/2023)**

*Notice of the Event
(Soft Skills and Life Skills)*

International women's day was organized by IIC (Institute Innovation Cell) and the Department of Psychology of C.M.P. Degree College on 16th March, 2023. The Chief Guest was Dr. Deepa Puneetha, former Head, Department of Psychology, University of Allahabad. The Principal Dr. Ajay Prakash Khare "Promotion of women entrepreneurship' and talked about gender disparities in all aspects of life in India. He highlighted the role of women in development of countries and talked about the slow pace in achieving discrepancies.

Prof. Deepa Puneetha's highlighted the importance of personality development and developing a feeling of self-respect among women to face the atrocities in society. Self-inspection she insisted is the most important tool for individual's success.

Dr. Ruchika Varma the Convener of the Department of Psychology in college spoke on the issue of decreasing participation of women in labour force. She said that social construction of gender and gender stereotypes are the root cause of any type of gender inequality. Women are increasingly becoming a part of Higher Education, however after a certain age she is pushed for marriage and settlement instead of waiting for the right employment, we need to develop such kind of social support that women employment becomes an obvious phenomenon in the society. Convener of the Centre for Skill Development Dr Amita Pandey distributed certificates to the first batch of Three months certificate course on Personality Development and Stress management. This course is run by Department of Psychology in an attempt to make students more confident and skill ful in achieving their goals. Economic independence is most important. Convener of the IIC, Dr. Archana Pandey welcomed all the guests while Dr. Ritu Raghuvanshi conducted the program and Dr. Ranjana Tiwari gave the vote of thanks at the end. Many faculty members Dr Sarita Srivastava, Dr Mahesh Kumar Maurya, Dr Satyamvada Singh, Dr Deepak Gond, Dr Bhupesh Srivastava, Dr Dipti Samatry were present on the occasion.

On this occasion four different women from different stratas of society were given Women's Day award for their remarkable strength and courage to fight gender stereotypes, these women were Ms. Shweta Tandon, Ms Sapna Jaiswal, Ms Vinita Jaiswal, and Ms Vina Paani were given the awards.

Notice of the Event

(Soft Skills and Life Skills)

A lecture on "**Effective Communication and its Key Aspects**" was organized by the Department of Psychology and Career Counselling Cell of the College on 10 November 2022 under the guidance of Principal CMP College, Prof. Ajay Prakash Khare. Department of Psychology has started a three months certificate course on Personality Development and Stress Management. Effective communication is an important aspect of personality development. Inauguration of the program and welcome of the guests was done by Dr. Aarti Gupta, Convenor, Career Counselling & Placement Cell. Dr. Ruchika Varma, Convenor, Psychology Department and Coordinator of the certificate course introduced the keynote speaker. Dr. Jyotsna Sinha, Associate Professor, Department of Humanities and Social Science, MNNIT, Prayagraj explained in detail the nature, types and importance of communication skills in personal and professional life. Communication skills enhance the personality of a person. She insisted on the relevance of Body language. Dr. Ranjana Tiwari, the Organizing Secretary of the program gave information to the students regarding further programs. A vote of thanks was done by Dr. Khushbu Agarwal. Dr Sunanda Das, Dr. Archana Raje, Dr. Pranayakant and a large number of teachers and students were present in the program. Students of the Psychology department, Shivam Singh, Deeksha, Stuti Dwivedi and Neha Singh made special efforts in organizing the event.

विस्तृत रिपोर्ट

योग दिवस

दिनांक: 21/06/2023

सी० एम० पी० डिग्री कॉलेज प्रयागराज में आज अंतर्राष्ट्रीय योग दिवस मनाया गया। राष्ट्रीय सेवा योजना के तत्वावधान में आयोजित इस कार्यक्रम में महाविद्यालय के प्राचार्य, शिक्षक, शिक्षिकाओं, विद्यार्थियों के द्वारा प्राणायाम और आसन की विभिन्न मुद्राओं के द्वारा योग किया गया। योग के महत्व को बताते हुए प्राचार्य प्रोफेसर अजय प्रकाश खरे ने बताया कि योग न केवल तन को स्वस्थ रखता है बल्कि यह आध्यात्म से भी जोड़ता है। पश्चिमी देशों में सिर्फ शारीरिक व्यायाम पर जोर दिया जाता है जबकि योग के माध्यम से शरीर और मन दोनों को स्वस्थ रखने का प्रयास किया जाता है।

अंतर्राष्ट्रीय योग दिवस के अवसर पर डॉ राजेश, डॉ ऋतेश त्रिपाठी, डॉ अनुराधा सिंह, डॉ आलोक सिंह, डॉ अरुण वर्मा, डॉ ज्योति वर्मा, डॉ रमेश सिंह सहित राष्ट्रीय सेवा योजना के समस्त कार्यक्रम अधिकारी उपस्थित रहे। कार्यक्रम में डॉ अर्चना श्रीवास्तव, डॉ नीता सिन्हा, डॉ प्रिया सोनी खरे, डॉ जितेंद्र कुमार, डॉ शर्मिला श्रीवास्तव, डॉ संजय सिंह, डॉ मृदुला त्रिपाठी, डॉ एस पी सिंह, डॉ अमित सिंह, डॉ दीप्ति विष्णु, सपना मौर्या, डॉ अंजनी श्रीवास्तव, डॉ अखिलेश यादव, डॉ नीरज सिंह, डॉ दीपक गौड़, डॉ महेश मौर्या समेत अनेक शिक्षक शिक्षिकाओं ने सहभागिता की। शिक्षणोत्तर कर्मचारियों में अजीत श्रीवास्तव, विनोद सिंह, रामबाबू सहित अन्य कर्मचारी उपस्थित रहे।

कार्यक्रम में रासेयो के स्वयं सेवक और स्वयं सेविकाओं तथा शोध छात्र छात्राओं ने उत्साह से भाग लिया।
