Those students who scores more than 50% marks shall be certified for the E-Certificate.</li><li><b>2. Advanced Awareness/Certificate Course in Water Literacy</b><br/>Certificate shall be provided after successful completion of the course. Those students who submits the field-based study report after completing the course shall be awarded certificate.</li></ol> | <p><b>DEPARTMENT OF CHEMISTRY</b></p> <p>Department of Chemistry has 19 teaching and 9 non-teaching staff. The research areas in which work is being pursued are in the field of Water, Synthetic Organic Chemistry, Polymeric Materials, Solar cell, and Coordination Chemistry, Materials Chemistry, Supra-molecular Chemistry and Medicinal chemistry. Faculty members of the Department have undertaken projects worth Rs. 1.1 Crore from various funding agencies like UGC, DST, CSIR, etc.</p> <p><b>ABOUT WATER LITERACY</b></p> <p>A crucial step towards attaining water sustainability and social water equality is building a solid, multidisciplinary, ubiquitous base of water knowledge among all water users. An educated and involved citizenry requires knowledge of the cognitive, affective/emotional, and behavioural domains of water, according to educational psychology. This aligns with the learning objectives outlined by the Education for the Sustainable Development Goals (ESDGs). Therefore, water literacy is the culmination of water-related knowledge, attitudes, and actions, distinguishing it from other more often used terms like ecological or environmental literacy and highlighting its significance. Water literacy is being used more and more, although the definition, implementation, and evaluation of the idea vary greatly depending on the application.</p>  | <p>Registration for</p> <p>Awareness/Certificate Course<br/>in<br/><b>WATER LITERACY</b><br/>2022-23</p>   <p>Department of Chemistry<br/>C. ## THE THEME OF WATER LITERACY

Water literacy, or the culmination of water-related information, attitudes, and behaviors, is a relatively new area of research that is becoming increasingly significant for social water equality and sustainable water management. Its usage and definition, nevertheless, vary widely and often in current literature. In light of this, we propose a fresh, all-encompassing framework for water literacy to direct a more broad-based, useful use of the idea. We looked at previous research on water knowledge, attitudes, and behaviors in student and adult populations using the framework, and we compiled global water literacy levels and knowledge gaps. We advocate the use of a variety of strategies, including better graphics, place-based learning, multidisciplinary curriculum, and reflective and iterative creation of future water literacy programmes, to overcome knowledge gaps.

### MAJOR AREAS OF STUDY

- Water Quality and Life Expectancy
- Water footprint
- Types of water pollutants and its effects on environment
- Addressing, Assessing and Improving Water Security
- Cultural Values in Water Management and Governance
- Water related diseases
- Sources of water in Prayagraj- related problems and remedies
- Conservation of water including traditional methods
- Innovative ideas on any water related issues like popularization/development of filter/water purification/conservation etc.

## DEVELOPMENT OF A WATER LITERACY FRAMEWORK

- Science and systems knowledge
- Local knowledge
- Hydro-social knowledge
- Functional knowledge

### COURSE MODULE

#### 1: Water and development

(Relation of water with social, cultural, economic, physical and democratic development, impact on each other and current challenges)

#### 2: Water Pollution

Purity - the standard of impurity, source: Identification methods, techniques and their practical knowledge. Side effects of water pollution and Water Quality Management (Policy and Technical Aspects)

#### 3: Group Based Field Work (Only for Advanced Certificate Course Students)

Overall study of a pond/well/lake/small river, planning his restoration.

Prepare a water management plan of a village/small town and hand it over to the college and the concerned gram panchayat/town committee or local administration.

## OBJECTIVES OF WATER LITERACY

- To make students and youth aware and educated about the significance of water, its resources, preservation and purity.
- To form a permanent unit of literacy by connecting selected students and teachers in CMP College.
- Repair of at least one pond by a batch either clearing a lake or (It would be better if this work can also be made such a necessary task for the participants of the course, on completion of which the concerned participants should be given a water literacy course certificate in the hands of a special person with a mention of special appreciation; otherwise part of the follow-up program to be it)
- To play the role of nodal college by CMP College to connect selected teachers interested in other schools/colleges for spreading water literacy work.
- A big seminar by the college. And A series of talks on water issues in small groups in village panchayats and schools by the participating students at their convenience.
- To present itself as a water model college by CMP College through rainwater harvesting, disciplined and reuse of water in the campus.

Enhanced learning through Innovative teaching and Research

Institute Innovation Cell of CMP Degree College

conducted

"National Innovation Day" on 15th October 2022.

Institute Innovation Cell of CMP Degree College conducted "National Innovation Day" on 15th October 2022. The National Innovation Day is celebrated on 15th October on the birth anniversary of former President of India and eminent Scientist Bharat Ratna APJ Abdul Kalam. Speaking on this occasion Dr. Babita Agrawal, Convener, Department of Chemistry shared the contributions of Dr. Kalam to the nation with the participants. She also stressed that the innovation is key to success of any nation and need to cultivate idea of innovation among the students. Dr. Archana Pandey, Convener, "Institutions Innovation Council" of the College informed the gathering that innovations have happened even in ancient days and still continuing in this century. She also shared some innovations of day to day life. Dr. Santosh Kumar Srivastava, coordinator of the program welcomed the gathering and described Dr. Kalam as the man with vision. Dr. Himani Chaurasia proposed vote of thanks at the end of the program.

**Number of Student Participants: 20, Number of Faculty Participants: 04**

**Mode of Session delivery:** Offline

**Objective:** To develop an innovative mindset among students.

**Benefit in terms of knowledge obtained:**

Students were oriented, developed and shared their own innovative ideas which helped in developing an innovative ecosystem amongst them.

## Institute Innovation Cell of CMP Degree College celebrated World Creativity and Innovation Day on 21 April 2023

Innovation - What, Why and Where (Innovation & Design Thinking) on the occasion of **World Creativity and Innovation Day, April 21, 2023** - Level 1 - Expert Talk.

**Programme driven by:** Dept. of Chemistry in collaboration with Institute Innovation Cell, CMP Degree College, Prayagraj

### Session Plan -

- **Welcome Address:** Dr. Amita Pandey, Convener (10 minutes)
- **About the resource person introduction:** Dr. Himani Chaurasia (10 minutes)
- **Resource Person's Lecture:** Dr. Archana Pandey (60 minutes)
- **Presidential address:** Prof. Ajay Prakash Khare (15 minutes)
- **Vote of Thanks:** Dr. Alok Singh [Innovation Ambassador, IIC, CMP] (10 minutes)
- **Students' queries with the resource person:** 45 minutes

### About the Event:

World Creativity and Innovation Day was celebrated by IIC (Institute Innovation Cell) of CMP Degree College on 21 April 2023. The resource person was Dr. Archana Pandey, Associate Professor of Chemistry and Convener of IIC. She delivered a lecture on Innovation: what, why and where. She told that innovation is no longer just for creating value to benefit individuals, organizations, or societies. The ultimate purpose of innovation should be much more for reaching, and helping create a smart future where people can enjoy the best quality of life possible. The ultimate goal of innovation should be the creation of a better future. She explained the difference between discovery, invention and innovation by giving examples. According to Dr. Pandey, for innovation creativity is necessary. Creativity leads to thinking, thinking leads to knowledge, and knowledge makes you great. Which types of minds are more suitable for innovation? - Definitely, child's brain. Their brain is free from prejudices. When a child asks a question, it is our responsibility to answer.

Innovation where- it can place in any part of the country e.g., kitchen, sports ground, huts, labour house, classes, labs, industries etc. She talked about processes of innovation – find a problem, collect

Institute Innovation Cell of CMP Degree College

Celebration

Expert talk on occasion of National Start up Day 16<sup>th</sup> January 2023.

**Name of Activity:** Expert talk on occasion of **National Start up Day** (Celebration Day Activity), 16<sup>th</sup> January 2023. **Programme driven by:** **Dept. of Chemistry in Collaboration with** Institute Innovation Cell, CMP Degree College, Prayagraj

**Session Plan -**

- **Welcome Address:** Dr. Archana Pandey, Convenor of IIC (5 minutes)
- **Session by:** Mr. Dipan Sahu, Assistant Director, MIC (120 minutes)
- **Vote of Thanks:** Dr. Jaya Srivastava, (Dept. of Chemistry) (5 minutes)
- **Event Convenor:** Dr. Himani Chaurasia, IA and Co Convenor of IIC

**About the Event:**

National Start up Day was celebrated by IIC, CMP Degree College, Prayagraj (UP) on 16<sup>th</sup> January, 2023 by arranging online (YouTube) lecture of Mr. Dipan Sahu, Assistant Director, MIC. To encourage the innovation, Prime Minister Narendra Modi announced last year to celebrate January 16 as a National Start up Day. The initiative will bring together young celebrated entrepreneurs to brainstorm, innovate and excel.

First he talked about initiatives of MHRD's Innovation cell-

Examples-

1. Smart Indian Hackathon
2. Institution's Innovation Council
3. Atal ranking of Institutions on Innovation Achievements
4. National Innovation and start-ups policy 2019 for students and Faculty
5. International Hackathon

This policy intends to guide HEIS to promote students and faculty driven innovations and start up. He also explained the thrust areas of NISP, important feature of the policy, strategies for promoting entrepreneurship etc. According to him, students should participate and go through problem identification, solution development, concept validation, prototype development, and business model and proposal development. He also discussed incubation and preincubation support, mentoring support funds IPR, shares, disputes in IPR and inter institutional collaboration.

### REPORT

The historic tree is situated in the village of Jhunki (or Jhunki), a suburb of the city of Allahabad. Radiocarbon dating relates Jhunki to an ancient archaeological site on the left side of Ganges at Prayag, known under the name Andhernagri and Pratishtanpur.

The history of the Jhunki area begins from 7,100 BCE (i.e., before common era or BC). Its past is documented by archaeological evidences that correspond to five cultural phases, ranging from Chalcolithic to the Early Medieval Period. Epigraphical remains discovered here during Maruya, Sunga, Kushana, Gupta and the Medieval Period testify that Jhunki reached an advanced degree of civilization at an early date. Pratishtan (Jhunki) is also described in Kurma Purana and Matsya Purana as the Prayagamandala.

The student of CMP college prepared a human chain to give the message for conservation of this historic tree under the supervision of Dr. Deepak Kumar Gond.

### REPORT

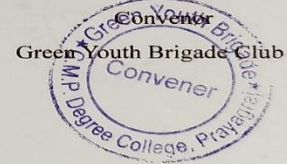

Plastic pollution is a serious environmental hazard that threatens the integrity of many ecosystems as well as the health and prosperity of both humans and animals. So, in concern with this Department of Botany and Green Youth Brigade Club, C.M.P. Degree College, Prayagraj organized a Programme on the theme "Beat Plastic pollution" on June 05, 2018 on the occasion of world environment day. Dr. S. N. Srivastava, was the resource person of the programme and told to avoid plastic bags and bottles, yet it is considered as cheapest packaging source.

Dr. Deepak also told to use alternative packaging material like jute bags etc., stop buying water in plastic bottles, boycott microbeads etc.

More than 78 students participated in the programme.

### REPORT

Plants play a very important role in cleaning the climate by absorbing carbon di oxide from the environment and releasing oxygen against increasing temperature of the earth. Instead of this plant also reduce soil erosion, cleans air, conserve energy etc. Department of Botany, C.M.P. Degree College, Prayagraj and Green Youth Brigade Club Organized Plantation Drive programme in the campus on the occasion of Independence Day on 15 August, 2018.

The programme was held under the supervision of Dr. Alok Kumar Singh. More than 150 students participated in the programme.

### REPORT

The Department of Botany, C.M.P. Degree College and Green Youth Brigade Prayagraj organized a workshop on the theme Mushroom and Medicinal plant cultivation in Tharwai, on August 30, 2018. Dr. Alok Kumar Singh, and Dr. Deepak Kumar Gond Department of Botany was the resource person of the programme.

Dr. Alok also told that mushrooms are not only a quality food but also a way of utilizing agricultural wastes and generating wealth from the waste.

Dr. Deepak Kumar Gond said that cultivation of medicinal plants requires intensive care and management. The conditions and duration of cultivation required vary depending on the quality of medicinal plant materials required.

More than 50 formers are participated in the programme.

### REPORT

In present rapid industrialization, deforestation and excessive use of vehicles are major cause of air pollution that contaminate the air by chemical, physical and biological changes in the air. Regarding this Department of Botany and Green Youth Brigade Club, C.M.P. Degree College, Prayagraj organized a programme on the theme "Air pollution" on June 05, 2019 on the occasion of world environment day. Dr. Alok Kumar Singh, Department of Botany was the resource person of the programme and discussed about the reduction of air pollution.

Dr. Alok told to reduce the use of cars, turn off the engine, use bicycle, plantation, eliminate fireplace and use wood stove etc.

More than 120 students participated in the programme.

### REPORT

In present rapid industrialization, deforestation and excessive use of vehicles are major cause of air pollution that contaminate the air by chemical, physical and biological changes in the air. Regarding this Department of Botany and Green Youth Brigade Club, C.M.P. Degree College, Prayagraj organized a programme on the theme "Air pollution" on June 05, 2019 on the occasion of world environment day. Dr. Alok Kumar Singh, Department of Botany was the resource person of the programme and discussed about the reduction of air pollution.

Dr. Alok told to reduce the use of cars, turn off the engine, use bicycle, plantation, eliminate fireplace and use wood stove etc.

More than 120 students participated in the programme.
