REPORT

The historic tree is situated in the village of Jhunsi (or Jhusi), a suburb of the city of Allahabad. Radiocarbon dating relates Jhunsi to an ancient archaeological site on the left side of Ganges at Prayag, known under the name Andhernagri and Pratishthanpur.

The history of the Jhunsi area begins from 7,100 BCE (i.e., before common era or BC). Its past is documented by archaeological evidences that correspond to five cultural phases, ranging from Chalcolithic to the Early Medieval Period. Epigraphical remains discovered here during Maruya, Sunga, Kushana, Gupta and the Medieval Period testify that Jhunsi reached an advanced degree of civilization at an early date. Pratishthan (Jhunsi) is also described in Kurma Purana and Matsya Purana as the Prayagamandala.

The student of CMP college prepared a human chain to give the message for conservation of this historic tree under the supervision of Dr. Deepak Kumar Gond.

REPORT

The Department of Botany, C.M.P. Degree College and Green Youth Brigade Prayagraj organized a workshop on the theme Mushroom and Medicinal plant cultivation in Tharwai, on August 30, 2018. Dr. Alok Kumar Singh, and Dr. Deepak Kumar Gond Department of Botany was the resource person of the programme.

Dr. Alok also told that mushrooms are not only a quality food but also a way of utilizing agricultural wastes and generating wealth from the waste.

Dr. Deepak Kumar Gond said that cultivation of medicinal plants requires intensive care and management. The conditions and duration of cultivation required vary depending on the quality of medicinal plant materials required.

More than 50 formers are participated in the programme.

Report

To execute this huge Project 20 post graduate students from science discipline chiefly from Chemistry (M.Sc.) were chosen to keep the entire immense mela area clean and odour free. Dr. Sunanda Das, Associate Professor, Department of Chemistry, CMP College was made co-ordinator to supervise the project from the end by the college. For this sanitation service program students received training for complete 8 hrs. and consecutively for two days to prepare 20.0 L of solution from ozonated water, 20 ml of peroxide solution and a very inexpensive catalyst. After training process was over, each sector (Mela area was divided into 20 sectors) was allotted with one chemist, one helper and a few cleaning staff. Preparation of 1500 liters of solution sometimes more the quantity per day was very challenging and tedious task but because of excellent team work it became easy and interesting in those adverse situations. In the mela area a 'Transfer Station' (a dump yard for prepared solutions) was made to collect cleaning solutions prepared by chemists which was later given to the vendors for sprinkling at garbage disposal area and in the make shift toilets. These toilets were name as Bio-toilets. Many times, more solution was provided to eliminate foul smell emanated from disposals on heavy mela days.

Due to extreme hard work of these chemists (students) mela was literally odour free and clean. This was highly appreciated by Chief Minister Yogi Adityanath ji, Prime Minister Shri Narendra Modiji, District Administration, Ministers and Chief Ministers from others States, delegates from Foreign Countries, Foreigners, Pilgrims, Sadhu's and Baba's from various Akharas and whosoever visited this holy place. This boosted the spirits of our young students immensely and thus with full gusto they completed this great job. As every good thing has a little dark side to it.

A major problem occurred when one of the helping staff members of Transfer station had breathing issue due to over-exposure of ozone. Soon that was taken care of by the program manager Mr. Ashish Tiwari and thus some necessary arrangements were made to shift the station to some

unpopulated place. Swaccha Kumbh was a part of social initiative and for each one working for this Kumbh was like performing a religious rite. Hence along with administration, health officials, Scientist, Sanitation workers and even visitors from various places to mela were too pitched in to join hands for this cause. Later in a grand ceremony the Scientists of this Sanitation program was honored by the district magistrate, Prayagraj and given certificate of Appreciation for their outstanding awe-inspiring work and fulfilling the motto "Swaccha Kumbh, Divya Kumbh".

Cleanliness campaign On the Sangam beach on 27/11/2022

If Ganga is saved, the country will be saved: Dr. Pramod Sharma On 27 November 2022, a cleanliness campaign was conducted on the Sangam beach by the students of the Water Literacy Certificate Course conducted by the Chemistry Department of CMP Degree College, as well as a rally was also taken out from Ramghat to Lete Hanuman Mandir for public awareness, in which We need Aviral Ganga, Nirmal Ganga by the students. We all have decided to make Ganga clean. Slogans like Save Ganga, Save the country were raised. Along with this, polythene and other garbage was collected and dumped in the dustbin at Ram Ghat. Cleanliness was also requested. This program will continue even further. On this occasion, Course Coordinator Dr. Pramod Sharma, Monu Gupta, Ankit Shivendra, Anushka, associated with Ganga cleaning campaign and CMP students were present.
